Tawfeek Khan

Senior Software Engineer | Java | Spring Boot | Microservices | AWS

Pune, India | khantawfeek00@gmail.com | +91-9673500285 | linkedin.com/in/tawfeek-khan-1055421a9 | github.com/Khantawfeek00

Summary

Senior Software Engineer with around 3 years of experience designing and developing scalable microservices and distributed backend systems for global SaaS products. Skilled in Java 17, Spring Boot, GraphQL, REST APIs, and event-driven architecture using Apache Kafka. Shipped 8 production features for Intuit's QuickBooks Online across 200 global regions, recording zero production incidents and 85% unit test coverage. AWS Cloud Practitioner and Claude Certified Architect Foundation certified, with a proven ability to leverage AI tools for accelerated development, collaborate across cross-functional Agile teams, and consistently deliver scalable, production-grade software.

Technical Skills

Languages: Java 8, Java 11, Java 17, Java EE, SQL, GraphQL
Frameworks and Libraries: Spring Boot 3.x, Spring MVC, Spring Security, Spring Data JPA, Hibernate ORM, Lombok, JUnit 5, Mockito
APIs: REST APIs, GraphQL APIs, Swagger, OpenAPI, Postman
Databases: MySQL, PostgreSQL, Redis
Messaging: Apache Kafka, Event-Driven Architecture
Cloud and DevOps: AWS, Docker, Kubernetes, Jenkins, CI/CD, Git, GitHub, Maven, Gradle, Log4j, SLF4J
Architecture: Microservices, Distributed Systems, System Design
Practices: OOP, SOLID Principles, Design Patterns, Agile, Scrum, Code Review, SDLC
AI Tools: GitHub Copilot, Cursor, Claude, Claude MCP, Claude Skills, ChatGPT

Work Experience

Persistent Systems Limited, Pune, India
Senior Software Engineer, QuickBooks Online (Client: Intuit) *Sep 2023 to Present*

- Designed and launched 5 backend features and 2 production microservices using Java 17, Spring Boot 3.x, GraphQL, and REST APIs, resolving critical scalability bottlenecks and reducing average API response time by 35%.
- Diagnosed and resolved high-priority P0 production incidents within strict SLA deadlines by performing root-cause analysis across distributed cloud services, reducing overall system downtime by 30%.
- Partnered with the Global by Default team to roll out features across 200 international regions, ensuring full regulatory compliance and zero production regressions.
- Performed impact analysis on 50 code changes and authored detailed implementation plans, lowering regression risk by 25% and reducing hotfix turnaround time by 15%.
- Established a strong unit-testing practice through developer testing and code review sessions, sustaining 85% unit test coverage using JUnit 5 and Mockito, with zero critical defects reaching production.
- Integrated GitHub Copilot and AI coding tools into team workflows to automate boilerplate generation, increasing sprint velocity by 20% and freeing engineers to focus on high-value feature development.
- Mentored 4 junior developers, improving their code quality scores by 20%.

Persistent Systems Limited, Pune, India
Software Engineer Intern *Jan 2023 to Jul 2023*

- Built an Exam Portal application over 6 months using Java, Spring Boot, MySQL, and Hibernate, gaining practical exposure to industry coding standards, design patterns, and peer collaboration on a shared codebase.

Projects

Airbnb Backend Clone *Jan 2024 to Mar 2024*

Tech Stack: Java 17, Spring Boot, Spring Security, MySQL, JPA, Hibernate, REST APIs

- Engineered a production-grade RESTful backend using clean architecture and SOLID principles, optimizing data persistence with MySQL and Hibernate caching strategies to accelerate response times by 40% and support 100+ concurrent users seamlessly.
- Secured 15 critical API endpoints with token-based authentication and Role-Based Access Control through Spring Security, closing unauthorized-access vulnerabilities with zero security breaches.
- Validated 30 endpoints with Postman and Swagger OpenAPI, and introduced a global exception handler covering 99% of API errors while standardizing integration workflows.

Education

Yeshwantrao Chavan College of Engineering, Nagpur, India *Sep 2019 to May 2023*
Bachelor of Engineering in Information Technology CGPA: 8.40 out of 10

Certifications

- **Claude Certified Architect Foundation**, Anthropic *Jul 2026 to Jul 2027*
- **AWS Certified Cloud Practitioner**, Amazon Web Services *Jan 2024 to Jan 2027*
